PROFESSIONAL SUMMARY

IAM Engineer with 4+ years of hands-on experience in Identity and Access Management, specializing in SailPoint IdentityIQ implementations and enterprise identity governance. Strong expertise in application onboarding, Joiner-Mover-Leaver (JML) lifecycle automation, access certifications, and compliance-driven IAM controls (NIST, SoD). Proven background in SSO/MFA solutions (Okta, Cisco Duo), federation protocols (SAML, OIDC), and Active Directory integrations, with successful delivery across BFSI and large enterprise environments.

TECHNICAL SKILLS

IAM & IGA Platforms

SailPoint IdentityIQ (IIQ), Okta, Microsoft Entra ID (Azure AD), BeyondTrust PAM, Saviynt, Cisco Duo, ForgeRock OpenAM, OneLogin, MiniOrange, Sectona

Identity Governance & IAM Capabilities

Joiner-Mover-Leaver (JML) Lifecycle Automation, Application Onboarding (AD, JDBC, Delimited File), Access Certifications & Manager Campaigns, Role-Based Access Control (RBAC), Segregation of Duties (SOD), Provisioning, Reconciliation & Aggregation, Custom Rules, Workflows & Reports, Policy Violation Management & Remediation

Federation & Authentication

SAML 2.0, OAuth 2.0, OIDC, Single Sign-On (SSO), Multi-Factor Authentication (MFA), LDAP, Kerberos

Directories & Infrastructure

Microsoft Active Directory, LDAP, Microsoft Entra ID (Azure AD), Public Key Infrastructure (PKI)

Cloud & Platforms

AWS (Certified Solutions Architect), Oracle Cloud Infrastructure (OCI), Microsoft Azure

PROFESSIONAL EXPERIENCE

Senior IAM Engineer

Wipro Limited | Pune, India | November 2024 – Present

- Led end-to-end application onboarding in SailPoint IIQ, including entitlement mapping, attribute synchronization, and custom rule configuration
- Designed and configured NIST-aligned manager certification campaigns for 15+ applications with automated remediation and escalation workflows
- Conducted requirement-gathering meetings with application owners and business stakeholders and produced technical documentation for production deployment
- Provided Tier 2/3 production support, resolving complex provisioning failures, workflow exceptions, and access issues with 95%+ first-call resolution
- Monitored SailPoint IIQ environment health, task scheduling, and workflows to ensure 99.5% uptime
- Collaborated with HR, Security, and IT Operations teams to streamline identity governance processes, reducing manual provisioning effort by 40%

Senior Security Engineer (IAM Specialist)

Inspira Enterprise | Pune, India | February 2022 – November 2024

SailPoint IdentityIQ Implementation - BFSI Client, Middle East (June 2023 – November 2024)

- Deployed SailPoint IdentityIQ 8.3 across Development, UAT, and Production environments for 5,000+ user identities

- Implemented automated JML lifecycle workflows using custom provisioning plans, reducing manual access provisioning by 70%
- Onboarded Active Directory, JDBC, and file-based applications with custom aggregation mappings, schemas, and correlation logic
- Configured scheduled aggregation, delta detection, and identity refresh tasks to maintain near real-time data consistency
- Developed custom SailPoint rules for account correlation, provisioning logic, and policy enforcement aligned with business requirements
- Performed root-cause analysis on provisioning failures, workflow errors, and connector issues, implementing permanent fixes

Okta SSO/MFA Implementation - Energy Sector Client, Australia (February 2022 – May 2023)

- Administered Okta SSO and MFA for 20+ enterprise applications supporting 3,000+ users
- Implemented SAML-based integrations for Salesforce, Jira, Office 365, Fortigate VPN, and other enterprise applications
- Configured MFA and access policies, reducing unauthorized access incidents by 85%
- Integrated Active Directory with Okta using high-availability AD agents, maintaining 99.9% uptime
- Delivered L2/L3 support for authentication issues, application access problems, and MFA enrollment challenges

Additional Contributions:

- Led IAM proof-of-concepts for OneLogin, MiniOrange, and Cisco Duo, delivering comparative technical evaluation reports
- Mentored and trained 5+ junior engineers on IAM fundamentals, SailPoint IIQ, and Okta administration
- Conducted technical interviews for IAM engineering positions

Software Security Trainee

Algebra Security Solutions (Merged into Inspira Enterprise) | Pune, India | December 2021 – February 2022

- Completed hands-on training in IAM fundamentals, Okta administration, SSO configuration, and access policies
- Gained exposure to information security principles, access control models, and security best practices

EARLIER ENGINEERING EXPERIENCE (2017 – 2021)

Electronics Engineer - PCB Design & Manufacturing

- PCB design optimization, Gerber file processing, and CNC workflow automation
- Improved manufacturing efficiency by 25% through process optimization

EDUCATION

Bachelor of Engineering (B.E.) - Electronics & Telecommunication

Savitribai Phule Pune University, India | Graduated: June 2016

CERTIFICATIONS

SailPoint - Identity Security Professional, IIQ Associate, Identity Security Leader

Microsoft – SC-300 (Identity & Access Administrator)

PAM – BeyondTrust: Implementation Engineer (Password Safe), Administrator certifications (Password Safe, PRA, EPM Windows, AD Bridge), Sectona Implementation Engineer

Cloud/IAM – AWS SAA, OCI Architect & Foundations ,Okta Certified Professional,Cisco Duo L1, Saviynt ISAA, CEH v11

PROFESSIONAL ACHIEVEMENTS

- Received Appreciation Certificate from Wipro management for outstanding contribution to IAM project delivery
- Won 2nd Place in Inspira Enterprise Indoor Chess Competition
